- **Software Developer Internship** @M.M.B. s.r.l. │ Faenza RA, Italy │ 2018 ~1 month

    In the span of two work-school activities, I was in charge of debugging one of the websites the company was developing. I also migrated website content from an old website to a newer one. During the last weeks, I developed a desktop application for internal use.

    HTML, CSS, JS, JQuery, WordPress, .NET

- **Software Developer Internship** @Bucchi s.r.l. │ Lugo RA, Italy │ 2018 ~1 month

    I assisted a sysadmin in various activities, including data parsing, archiving, and visualization.

    CentOS, PostgreSQL, Python, Flask

- **Computer Technician Internship** @T4 LAB │ Faenza RA, Italy │ 2017 ~1.5 months

    I fixed clients' PCs: most of my tasks were malware removals, system cleanups, backups, and data restoring.

    Windows XP to 10, Ubuntu
